

## Phase 10: Final Presentation & Demo – MAX FIT App

- Prepared a compelling pitch highlighting the fitness event management challenges and how MAX FIT offers a streamlined solution with real-time registration, seat management, and personalized dashboards.
- Delivered detailed demo walkthroughs showing event creation, user registration flows, reporting capabilities, and administrator dashboards to demonstrate core functionality and usability.
- Provided comprehensive handoff documentation including system architecture diagrams, data models, flow designs, Apex code summaries, and user manuals to support smooth transition and future development.
- Highlighted key benefits such as improved event oversight, automated capacity control, enhanced participant engagement, and scalable architecture tailored for fitness event management.
- Engaged stakeholders and gathered feedback for continuous improvement, ensuring MAX FIT meets real-world fitness community needs effectively.
